FABGLASS

DESIGN THE LIGHT

Fabglass Classic continuerà il percorso intrapreso venti anni fa, proponendo modelli in linea con la tradizione classica del vetro soffiato, rinvigorita dalla consulenza di designers e dell'esperienza dell'Azienda che ha voluto sempre mantenere un profilo alto. trasparenze, giochi di luce, si alternano per dar vita a creazioni di altissima qualità, realizzate esclusivamente a mano da maestri soffiatori.

Fabglass classic will continue the path taken twenty years ago, proposing models in line with the classical tradition of glass blowing, reinforced by the advice of designers and the experience of the company that has always wanted to maintain a high profile. The results of alternating transparencies and light effects are the hand-made creations of the highest quality crafted by master blowers.
